505 Brewing Company Business Plan

Tim Gesell, Owner
Shawn Morrow, Owner/Head Brewer
Executive Summary

505 Brewing Company is a start-up microbrewery targeting the 505 Main Street building as its home in downtown Fremont, NE. We have a passion for great beer and seeing downtown markets flourish. Our vision is to be Fremont’s brand, Nebraska’s brewery. Our mission is to build off of the German beer purity law of water, malt, hops and yeast while adding three more critical ingredients: Art, passion, and community.

We plan to partner with a Lincoln, NE based brewing equipment manufacturer. This will bring the best equipment in the area to our brewery. This will allow us to offer the best in quality products. The byproduct and benefit of the brewing process is our grain can be given to local farmers for their livestock.

Our products will be our core brews, specialty/seasonal brews, guest taps from local breweries, Nebraska spirits, and wine. Our non-alcoholic offerings will be our own root beer and cream soda. We plan to offer food through a partnership with the restaurant on the main level or area food trucks.

Our plan in year one is to target local marketing and growth in our tap house along with local establishments. We want to build our brand in Fremont and engage the community to make our brewery theirs. In year two we plan on installing a canning line and branch out to distribution all around the state of Nebraska. The sky is the limit from there.

Products

505 Brewing Company will have four core brews:

- Saison – Belgian golden ale. Fruity, spicy flavor and aroma with a crisp finish.
- American IPA – American take on the traditional India pale ale. Hop forward, citrus flavor and aroma with a crisp dry finish
- Pale Ale – Well balanced, golden in color and steeped with American hops.

Specialty/seasonal brews

Root Beer and Cream Soda made in house

Other:

- Other local brewery guest handles
- Nebraska spirits
- Wine
- 505 Brewing Company apparel and logo product
Market Analysis Summary

Overall U.S. beer volume sales were down 1% in 2018, whereas craft brewer sales continued to grow through year end at a rate of 4% by volume, reaching 13.2% of the U.S. beer market by volume. Craft production grew the most for microbreweries. Retail dollar sales of craft increased 7%, up to $27.6 billion, and now account for more than 24% of the $114.2 billion U.S. beer market. Now three quarters of the way through 2019, projected at-the-brewery sales growth estimates are slated to close out the year at 13% (about 400,000 barrels), to as much as 3.5 million barrels in 2019. Of this total growth, 4.5% is due to new products released or launched in 2019.

Currently Fremont has over 26,000 people and is in close proximity to Omaha and Lincoln markets. This makes Fremont a prime location for market success.

Sales Strategy, marketing and Forecast

505 Brewing Company plans to establish itself to the local market by primarily focusing on tap room sales and growth in year one. We also plan to market and sell products to local establishments. Our focus will be on engaging the community and generate excitement over our brand to make it Fremont’s own. We plan to get involved in as many activities and events around Fremont as possible. Creating an experience through our brewing and tap house.

Marketing will rely heavily on engagement with the Fremont business community and the Fremont public at large. Partnerships, special events, product sharing, product raffles, “Mug” clubs, limited releases and locally sourced ingredients and goods are at the heart of the outreach to both other local business and the community. Our plan will be to carry both a strong physical presence in the city and also rely heavily on digital outlets and social media. The goal is to draw both digital and physical traffic to our brand and to downtown.

Starting in year two we plan to install a new canning line and branch out further in to distribution. This will allow us to make a presence across Nebraska and beyond. The plan is to be available in local/regional bars as well as retail outlets, such as local markets and corner stores. We will also aim to distribute through supermarkets, but we envision getting shelf space in national supermarkets will be more difficult and more expensive.
The following is the sales forecast for the next three years.
