STAFF REPORT

TO: Utility and Infrastructure Board

FROM: Jeff Shanahan, General Manager

DATE: February 24, 2026

SUBJECT: Certification of City Street Superintendent for remainder of the calendar year 2026

Recommendation: Recommend that City Council approves the appointment of Anna Allen as Fremont Street Superintendent beginning March 16, 2026, for the remainder of the 2026 calendar year.

Background: The City of Fremont is required by State Statutes to have a designated Licensed Street Superintendent, and the appointment is made on an annual basis. Troy Schaben was appointed to this role by the Mayor and City Council in 2025 for the 2026 calendar year. With the appointment of Anna Allen as City Engineer effective with her first date of employment, Mr. Schaben will no longer be serving as the City Engineer and will therefore no longer eligible to serve as our Licensed Street Superintendent. It is therefore necessary to appoint a new designee so as to maintain someone in this role for the balance of the year. Ms. Allen is a Licensed Street Superintendent. She is also a Professional Engineer and is serving as the City Engineer, effective upon her first day of employment and meets the requirements to perform the duties of city street superintendent outline in Section 39-2512. Accordingly, this license also serves as a Class A license for purposes of incentive payments under section 39-2512 to 39-2515. This action will formalize that appointment for NDOT Year 2026 reporting purposes.

This item will be considered by the City Council on February 24, 2026.

Fiscal Impact: None

STAFF REPORT

TO: Utility and Infrastructure Board
FROM: Alan Kaspar, Director of Transmission & Distribution
DATE: February 24, 2026
SUBJECT: Electric Meter Purchases for Advanced Metering Infrastructure (AMI) System

Recommendation: Recommend City Council approve resolution authorizing purchase of electric meters for Advanced Metering Infrastructure (AMI) System.

Background:

Fremont Department of Utilities Transmission & Distribution is currently in the process of completing Phase I installations of the electric advanced metering infrastructure system as approved by City Council on August 27th, 2024.

Transmission and Distribution intend to proceed with the installation of Phase II immediately after the completion of Phase I, as is reflected in the current capital budget.

To ensure that the next mass meter order is received in time to maintain this progression, staff would like to order them now. This order will not represent the entirety of Phase II installs, but is a significant portion. The order quantity is suited to storage capabilities at the utilities warehouse.

Staff therefore recommends that the Utility and Infrastructure Board recommend that City Council authorize the purchase of electric meters in the amount of \$782,351.90.

Fiscal Impact:

Funds for this purchase are in the current and future capital budget(s).

Ryon Palmer, Fleet Manager

DATE: February 24, 2026

SUBJECT: Purchase a Vermeer LP873SDT HVY Vac Tailer

Recommendation: Authorization to purchase a Vermeer LP873SDT HVY Vac Tailer

BACKGROUND:

The Utilities Warehouse has budgeted funds to purchase a Vermeer LP873SDT HVY Vac Tailer for use by our staff. This unit will be a replacement for an older Vac Trailer in our current fleet. The replaced unit will be sold at auction.

When researching we took into consideration: overall size of the unit, weight capacity, horsepower, total boom height, and the versatility of the unit.

After consultation with Venders a specification was developed, and a quote returned on a unit that would meet the Utilities requirements.

The price below is based on Sourcewell Contract #110421-VRM
